BREAKING DOWN AI PRODUCTS · SERIES #2 · PARIS, FRANCE

Photoroom AI

Public web analytics + proxy monetisation insights — product & growth signals

Dec 2025 → Jan 2026

#2

16×

Photoroom converts at 4.3% — 16× higher than Mistral AI's 0.27%

The most telling signal in consumer AI: not traffic, not downloads — but who actually pays

KEY INSIGHT

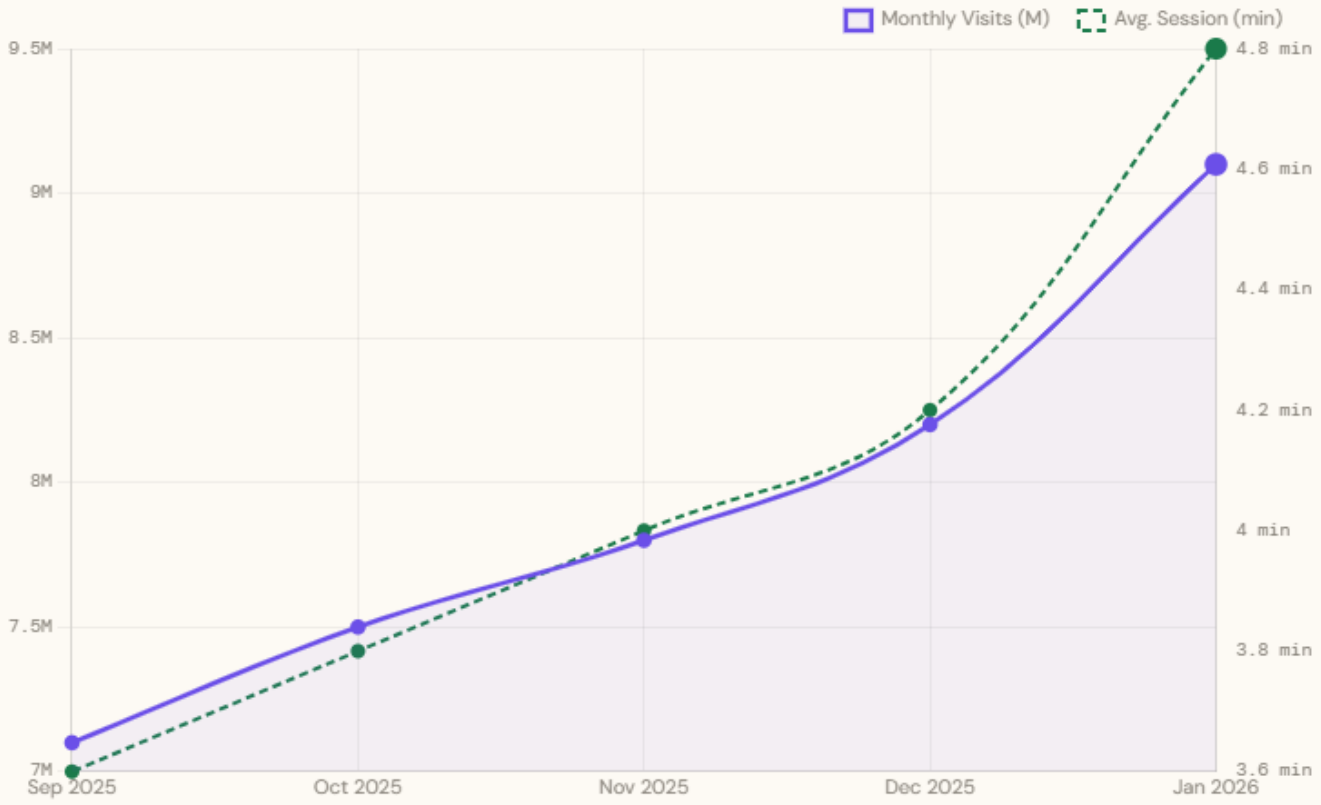
WEB & APP METRICS

MONTHLY VISITS	CUMUL. APP DOWNLOADS	PAID CONVERSION (PROXY)	FUNDING (PUBLIC)
9.1M	**150M+**	**4.3%**	**$43M**
Jan 2026 · was 8.2M	iOS + Android · public	Jan 2026 · was 3.9%	Series A · 2023 · public
↑ +10.9% MoM	↑ All-time milestone	↑ +0.4pt MoM	~$500M valuation

Traffic & Engagement Trend

EST. PUBLIC DATA

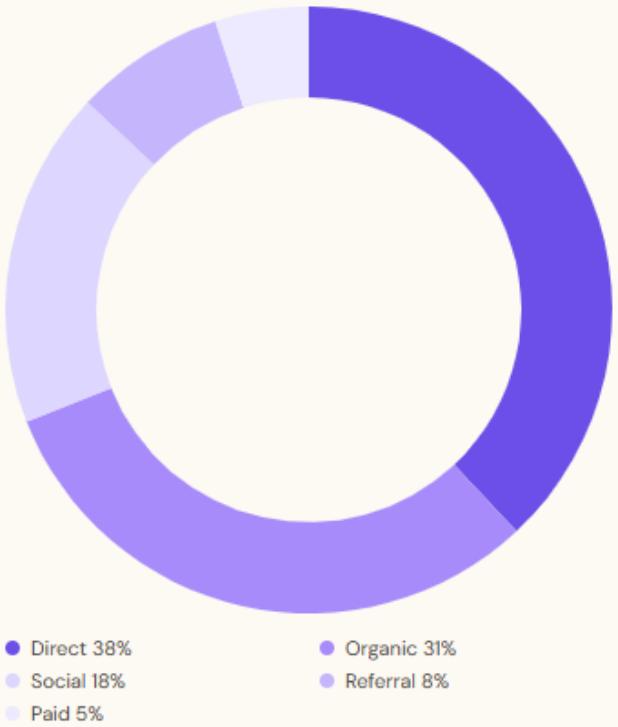
Monthly visits vs. avg. session duration — both trending up together



Traffic Sources

PROXY

Jan 2026 · channel mix



Top Markets

PROXY

Traffic share by country · Jan 2026

US	United States	35%
IN	India	18%
BR	Brazil	12%
FR	France	8%
GB	United Kingdom	7%
	Other	20%

*Only **8% of traffic from France** — a Paris-born product that went global before it went local.*

Conversion Funnel

PROXY

Visitor → paid user · Jan 2026

Unique Visitors	3.4M
Engaged (2+ pages)	~2.1M · 61%
Free sign-up (proxy)	~680K · 20%
Paid conversion	**~146K · 4.3%**

*At $4.99/mo avg., **~$8.7M monthly revenue proxy** — $104M ARR if retention holds.*

vs. Mistral AI

PROXY

Series benchmark · same period

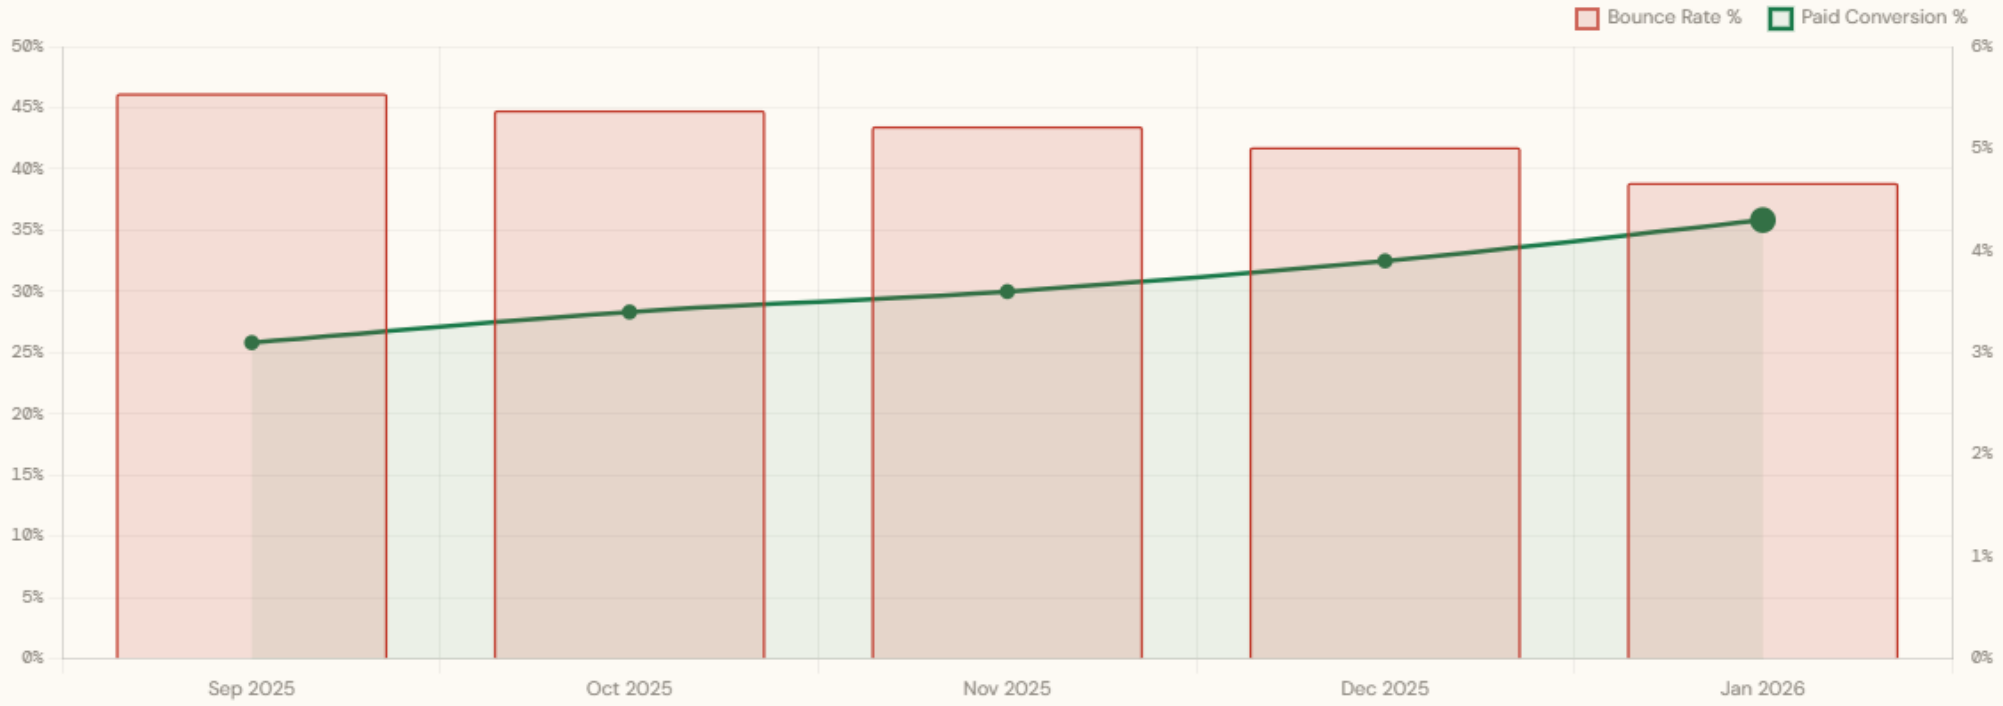
	Photoroom	Mistral AI
Traffic MoM	+10.9%	+6.4%
Paid conversion	4.3%	0.27%
Bounce rate	38.9%	47.9%
Session duration	4.8 min	11.4 min
Funding raised	$43M	€1.7B

*Mistral has **40× more funding**. Photoroom has **16× better conversion**. Different games entirely.*

Engagement Quality vs. Conversion Rate — Monthly Evolution

Bounce rate falling while conversion rises: the sign of a product finding its audience

EST. PUBLIC DATA



- Real public data: app downloads, funding, App Store ratings
- Proxy / estimated: conversion, MAU, revenue, traffic sources, geo split
- Web traffic estimated from public analytics tools (SimilarWeb-class data)
